- **EAB Status:** Forester Bond stated that EAB has not been detected yet in North St. Paul. The closest that has been detected is seven blocks west of Beaver Lake in St. Paul. Public Works is actively searching for signs and symptoms of EAB in Blvd. and Park trees, as well as private trees when inspection requests come in. Public Works is in the process of getting bids for treating trees. Vice Chair Olson asked what the criteria is to treat trees. Bond stated they are potentially looking to treat high value trees in Park. Vice Chair Olson inquired about tree companies doing work in town if they need to be licensed. Stachowski stated that tree companies that do work in North St. Paul need to be licensed. Community Development Department has the list of licensed tree companies. Josh reviewed the tree inventory images with the Commission from 2011 and 2017. The Ash population has been decreased by 7% so far due to street projects removals and off-project year removals. Chair Olson shared with the Commission information regarding the WASP watcher program.

- **Gravel Bed Dumpster Method:** Forester Bond said the Gravel Bed Dumpster is going well. There is a cost savings to growing trees via gravel bed versus buying them at a nursery. Bond shared tree root photos with the Commission.

- **Improving Community Forests Through Citizen Engagement Grant:** Forester Bond stated that the grant is going well. He stated that 25-30 volunteers helped plant 100 trees along the state trail. He stated the tree seward class was pushed back to June 20th from 6-9pm. Bond also shared information regarding the citizen pruner program.

**B. Review/Discussion/Possible Action:** Environmental Newsletter Articles. Gustafson stated that all articles need to be completed by June 30th.
