She added the Commissioners hope to address the issue of racial disparity in the County’s jail inmates. She noted the number of youths in the juvenile detention center was reduced.

B. Constitution Week Proclamation – Karrie Blees

C. Eagle Scout Project

Mr. Duddeck introduced Grayson Retzloff, a 17-year old resident from Boy Scout Troop #946 based at Presentation Church in Maplewood.

Grayson Retzloff thanked the City Council for considering his request for his Eagle Scout project. He added he lives in North St. Paul, and when he was deciding on his project, he wanted to give something back to his home community. He noted, for his project, he would like to build 2 benches to be placed along the path by Franklin Pond.

Grayson stated the proposed benches would give senior citizens a place to rest when they are walking near the pond. He added Public Works staff have indicated the City might be able to provide some funding for the project. He noted there is also a possibility that he can get funding from his Boy Scout Troop.

Grayson presented a draft design for the benches. He added they would not be anchored to the ground so they would be removable for shoveling and snow removal. He noted stationary benches would be difficult.

Keith Stachowski, Parks Coordinator, stated Grayson’s proposed benches would be a nice addition for residents who walk on the path year-round, including students and senior citizens.
Grayson stated he could possibly get funding from his troop organization, but any City funding would be greatly appreciated.

Grayson stated the Eagle Scout project must be completed by the time he turns 18 in 6 months. He added he hopes to complete the benches this fall.

Mr. Stachowski stated this proposal is part of Grayson’s bigger project involving planters at Polar Ridge. He added Grayson hoped to obtain City Council approval for the benches first.

On motion by Council Member Petersen, seconded by Council Member Thorsen, with all present voting aye (5-0), motion carried to approve Grayson Retzloff’s Eagle Scout project for construction of park benches to be located at Franklin Pond, and to approve funding up to $300 for the project to be allocated from the Park Fund.

Council Member Walczak asked whether the Public Works Department would be involved in the construction and placement of the benches. Mr. Stachowski confirmed this, adding Public Works staff will determine the most efficient and safe way to remove snow.

Mayor Furlong asked whether there will be a plaque on the benches. Grayson stated a plaque might be added on the backs of the benches.

City Attorney Soren Mattick stated, for purposes of clarification, Grayson is building the benches for the City, and the City is not making a donation to an organization. He added the money that is being allocated to Grayson will be used to buy supplies for building the benches.

He requested that residents be made aware of the actual rates including taxes and charges. He noted he is unable to read the small print.

Mr. Duddeck stated the fees list was consolidated to fit onto a 1-page mailer and the font is smaller.

Mr. Schmahl stated the descriptions, fees and charges should all be the same front and boldness as the price so there are no surprises.

He added there was a large turn-out and many residents spoke against the proposed development and expressed concern about issues that are misconceptions. He noted, for example, residents expressed frustration that by the time a decision is reviewed by the Planning Commission or City Council, it is a formality and a decision has already been made. He stressed that this is not the case.

Council Member Sonnek stated most of the residents were not supportive of the proposed project. He added he understands the difficulty inherent in a big change, but many of the reasons were based on misconceptions.

Council Member Sonnek stated the next Planning Commission Meeting is scheduled for Thursday, September 5, 2019 at 6:15 p.m.

Council Member Peterson recently attended her first two meetings as a Board Member of the League of Minnesota Cities. She added the Board is involved with 853 different cities and has a budget of $11.5 million. She noted she is enjoying her time on the League Board.

Council Member Petersen stated she attended a Metro Cities Revenue Policy Review meeting earlier that day, at which the issues of homelessness, implied consent, economic policy and the gas tax were discussed. She added the meeting was attended by a representative from Governor Walz’s office.

Council Member Petersen stated she attended a Metropolitan Council meeting, at which she spoke with Susan Vento, the new Commissioner for District 11. She added Ms. Vento expressed an interest in coming to a North St. Paul City Council work session or meeting to address the City Council.

Ms. Petersen stated the Summer Splash event did very well this year, making approximately $8,000 for the summer lifeguards.
Mayor Furlong asked Mr. Dawley to provide an update on the ongoing street reconstruction projects.

Mr. Dawley stated two neighborhood Open Houses are planned to review 2020 potential project areas. Both Open Houses will be held from 4:30-6:30 p.m. at City Hall. The first Open House is scheduled for August 21, 2019 to discuss 7th Avenue from 1st Street to 3rd Street, for which a feasibility report was authorized by the City Council early in 2019. He noted the second Open House is planned for August 28, 2019 to review a potential project in the Casey Lake neighborhood and determine whether to move forward.

Pavement management projects initiated in 2018 on Helen Street N from 17th Avenue E to 12th Avenue E/Castle Avenue E were completed. He added roadway improvements near North High School were completed by August 15, 2019 which was the City’s goal.

Mr. Dawley stated the Silver Lake Area reconstruction project was originally intended to be a 1-year project, with contracts for underground utilities and streets reconstruction. He added valuable community engagement resulted in renovation of sidewalks and the addition of trees, which facilitated a 2-year time frame. He noted the length of this project has been difficult for residents.

Mr. Dawley stated the Swan Avenue/Poplar Avenue loop in the Silver Lake project area is the narrowest roadway in North St. Paul, and road construction has been problematic and frustrating for residents. He encouraged residents to use the construction hotline to contact Jason Keyser, the contractor representative. He added Mr. Keyser is always available to answer questions and provide support for residents.

Mr. Dawley stated City Staff is working on an enhanced communication email update that will provide more detailed information for concerned residents. He added that will hopefully be coming out this week.

Mr. Dawley stated curb and gutter in the Phase 1 project area will be completed on schedule, by the end of next week, and Phase 2, reclaiming pavement, will begin by August 19, 2019. He added potential paving in Phase 1 areas will begin mid-September. He noted the City has indicated that October 2019 is the substantial completion date for all areas and the contractor appears to be within that time frame.

Mr. Dawley stated residents will be able to use their driveways by the end of the week. He added it is important to wait until the cement on the driveways is cured. He encouraged residents to have patience and requested the City Council’s support for the contractor and their workers.
