Re: Project Update and Informational Neighborhood Meeting
2018 Street and Utility Improvements Project, Lake Boulevard
North St. Paul, Minnesota

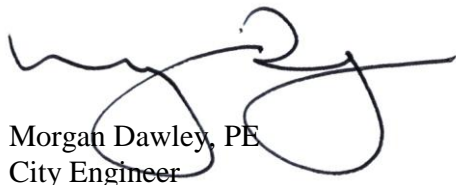

Hello and Happy Spring!

We have not had an update since the last project Public Hearing held on February 20th. As many of you know, the City Council did not order an improvement project at that meeting. Since then different considerations for Lake Boulevard have been prepared and evaluated, and at the April 17th City Council Workshop a Lake Boulevard concept was presented that the City Council wanted to share with residents, and also to consider at a new Public Hearing, which will be notified in a separate mailing.

To allow residents the opportunity to see the Lake Boulevard concept ahead of time and ask questions, the City Council has directed staff to hold a public, informational Neighborhood Meeting. **The Neighborhood Meeting will be held on May 9, 2018 at North St. Paul City Hall, located at 2400 Margaret St N, from 6:30 p.m. – 7:30 p.m.** City staff and project representatives will be available to discuss the proposed project, answer questions and receive your input.

If you are unable to attend, please feel free to contact me at 651-286-8476 or mdawley@wsbeng.com, and Cynthia Govan in Community Development at 651-747-2441 or cynthia.govan@northstpaul.org.

Sincerely,

Morgan Dawley, PE
City Engineer
